PRODUCT INFORMATION

Catalog No.:	G036
Product Name:	Anti-HA Tag Antibody
Description:	Mouse Monoclonal IgG3
Clone:	HA.C5
Immunogen:	A synthetic peptide from influenza hemagglutinin epitope (YPYDVPDYA) coupled to KLH.
Specificity:	HA-tag monoclonal antibody Recognizes HA-tagged tagged proteins overexpressed in cells, including both amino- and carboxy-termini of targeted proteins in transfected mammalian cells.
Formulation:	100µg in 100µl PBS, pH 7.4 with 0.05% sodium azide. Frozen liquid.
Special Precautions:	For maximum recovery of product, thaw and centrifuge the original vial before removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquots will be stable at 4°C for 3 months.
Applications:	ELISA, Dot blot, Western blot (1:1000), Immunoprecipitation and immunostaining (1:200).
Storage:	Stable for 1 year at -20°C from date of shipment.
